

WAV360ST is a modern chandelier made of a freeform 360 degree flexible tube light which stands on a horizontally suspended stainless steel base with a brushed gold finish.

This nordic line style fixture is based on twisted line shapes that are illuminated by uniform distribution of diffused LED light of different color temperatures. WAV360ST is secured using suspension wire ropes and comes in variable lengths up to 8 feet.*

Wave series can be conveniently controlled with multi-zone wall touch keypad and smart mobile app options. WAV360ST is a perfect fit for use in residential and commercial spaces for damp and dry contemporary design applications to produce ambient or decorative illumination.

EnoLight lighting solutions are designed and manufactured in Canada to the highest industry standards with 5 years warranty.
